

FATAL SHOOTING AFFAIR NEAR WOODLAND

"DAN" CONOWAY KILLS SELF AFTER SHOOTING WIFE, MOTHER-IN-LAW AND LITTLE STEP-DAUGHTER

VICTIMS OF ATROCIOUS DEED ARE IN CLEARFIELD HOSPITAL: CONDITION SERIOUS BUT NOT NECESSARILY FATAL

BOUGHT GUN HERE THIS MORNING

The little rural community surrounding the Independent school district in Bradford township, about one mile from Barrett Station, was thrown into a fever of excitement by a most repulsive occurrence this morning about 9:30 o'clock. As a result of the happening, which shocked the entire community, James R. Conoway, a miner aged 32 years, is lying dead in the public road in front of the house of Grant Cupler, while his wife, Mrs. Alta Lytle Conoway, aged 22 years, his step-daughter, little Alice Davis, aged 6 years, and his mother-in-law, Mrs. Grant Cupler, are patients in the Clearfield Hospital, suffering from serious gun shot wounds.

The shooting was done by J. B. or "Dan" Conoway and was culmination of a series of domestic difficulties extending almost from the time of his marriage something over three years ago. Some time ago his wife was forced to leave him on account of his abuse and failure to provide for her. They sort of patched up their differences again, but on Saturday last Mrs. Conoway went before a Woodland Justice of the Peace and made information against the husband for asault and battery. The warrant had not been served but Conoway heard of the warrant having been issued and discussed the matter with several acquaintances, on Sunday. He seemed to regard it as more or less of a joke in telling that he and his wife were going to have a lawsuit. He said he was coming to town today to hire a lawyer.

He came to town early this morning but instead of hiring a lawyer, he went to the gun store of Ira Walton on Market street where he purchased a cheap .22-calibre revolver and a number of shells for same.

He went out to Barrett on the 8:20 Pennsylvania train and walked the intervening mile to the Cupler home, where he appeared about 9:30 o'clock. His wife and Wayne Cupler, a little 7 year-old boy, were in an out-kitchen adjoining the home when Conoway walked in off the road and looked thru the window. When he saw the face of her in hand at the window Mrs. Conoway screamed and ran out onto the porch toward the back door of the house. Conoway fired at her as she was mid-way between the out-kitchen and the house. The bullet struck the woman in the back but a corset steel deflected it and glanced off it imbedded itself in the wall alongside the door.

Conoway followed the woman into the kitchen where her mother, Mrs. Cupler, and several little children were huddled, frightened almost out of their wits by the shooting.

When he entered the door Conoway turned his weapon on his mother-in-law and fired a shot at her. The bullet struck her in the right breast and passed clear through her body, coming out under the shoulder blade. The little step-daughter, the innocent cause of much of the trouble between Conoway and his wife, was standing nearby and the crazed man fired a shot into her right side, the bullet penetrating the breast and lodging just under the skin.

When Conoway turned his gun up on her mother and child, his wife appeared to lose all thought of self and turning flew into him like a tiger. She caught his arm and wrestled with him and with the strength of desperation managed to thrust him out of the porch and slam the door shut behind him.

The little 7-year-old boy was standing on the porch too bewildered to run away when Conoway was thrust out onto the porch, but he seemed to have satisfied his lust for blood of innocent people and paying no attention to the boy he made his way toward the front of the house. The boy says he fired a shot as he went toward the river and as he reached the road a second shot rang out and Conoway fell to the ground with a gaping wound in his head, the fatal bullet entering his right temple and coming out behind the left ear. The revolver dropped from his nerveless hand as he fell and was lying a few feet from his hand.

The alarm was quickly given and medical aid for the injured women was summoned. A telephone call soon brought the ambulance and Mrs. Cupler, Mrs. Conoway and her child were brought to the hospital for medical attention.

Meanwhile word was sent to the authorities and Corporal Hoffman and State Trooper Keogh repaired at once to the scene, where they took charge of the situation until Coronor Pollam and his jury arrived to hold the required inquest into the happening.

Word from the hospital as we go to press is that while Mrs. Cupler and the little Davis girl are seriously hurt, their injuries are not necessarily fatal. Mrs. Conoway's condition is highly satisfactory.

SYKESVILLE MOTOR CYCLE RACER MEETS DEATH AT DUBOIS

Philip Hensher, died at the Maple Avenue hospital, DuBois, shortly after 12 o'clock this morning, following injuries received in a motorcycle accident at noon on Saturday. Mr. Hensher was unconscious for a period of 36 hours having been in a state of coma from the time of the accident until death took place early this morning. The body was removed to the Moore undertaking rooms, where it will be prepared for burial, pending the arrival of relatives here this morning to take charge of it.

Hensher, who is a resident of Sykesville, was at the park in connection with the DuBois Motorcycle club picnic held there on Saturday. Although the races were not scheduled until afternoon he decided to tune his machine up a bit by running around the track several times. He proceeded to do so and while approaching the far turn on the second lap was traveling at a terrific rate of speed, estimated by eye witnesses at between 55 and 60 miles an hour. He applied the brakes suddenly with the result that the machine and side car tilted straight ahead the momentum turning it over three times before being brot to a stop. The unfortunate man was unconscious when picked up and was given first aid treatment. It was noticed however that his condition was serious and he was placed in a car and hurried to the Maple Avenue hospital where he remained in an unconscious condition until death.

The machine which he was riding was practically undamaged, and can be repaired with but little expense. It is stated that as a result of the speed at which he was traveling, and the force with which he applied the brakes the entire machine with its driver was hurled into the air a distance of 15 feet, following the first turn over. It fell back to the ground and made two other turns before stopping. Hensher was still at the wheel when help arrived.

ITALIAN WORKERS TAKE FIRST STEP TO FIRST UPSET

LONDON, Sept. 13.—The Post declared today that the seizure of factories by workers in Italy is the first step of a vast conspiracy to overthrow the existing governments in Europe. The events in Italy, according to the newspaper, were timed to occur simultaneously with the expected capture of Warsaw by the Bolsheviks and were to be followed by a general strike in Great Britain and an uprising in Germany.

RAILROAD MEN TO HEAR HARDING

MARION, Ohio, Sept. 13.—Local railroad men will gather around the Harding front porch after work today to hear the Republican Presidential nominee discuss the issues concerning them. Much interest centered on the election in Maine today which will throw light on the trend of the country. It developed today that one of the principle reasons for Harding's western trip is to make a fight for a Republican United States Senate.

REPUBLICANS WILL CARRY MAINE IN ELECTION TODAY

WASHINGTON, Sept. 12.—Secretary Daniels, regarded as President Wilson's personal representative in the Maine election campaign, returned from that state tonight and conceded victory to the Republicans tomorrow. He admitted it was just a question of majority.

Republican leaders claim they will carry Maine by 25,000 majority. What is more they point to the old political proverb "as Maine goes, so goes the Nation." President Wilson and the league of nations have been the sole issues.

"We waged a splendid campaign, had big audiences, and plenty of enthusiasm, but I would not want to claim victory as Maine is inherently Republican," said Secretary Daniels.

"No one expects Maine to go Democratic any more than one would expect Texas to go Republican," he added.

"I do not want to make any promises," he retorted. "You know the election has no significance with relation to the November election. The electoral vote is not affected."

Until Secretary Daniels returned leaders were inclined to speak hopefully of the New England situation. Extensive arrangements had been made, particularly at the White House, to get the returns.

Republicans challenged the Democratic claim that tomorrow's election is of no significance.

"It is true that it is not a presidential election but Maine voters are electing a complete state ticket, as well as members of congress," said Bascombe Flint, district director for the Republican committee, "and the all-absorbing issue has been the league of nations."

NOTICE REPUBLICANS

Members of the Vigilance Committee will meet in the Arbitration Room of the Court House on Monday evening, tonight, at eight o'clock for the purpose of laying plans for the coming election. It is hoped that all Republicans both men and women, will attend.

GOVERNOR CALLS ON PEOPLE TO SAVE OUR FORESTS

HARRISBURG, Sept. 13.—Governor Sproul today issued a proclamation calling upon the citizens of Pennsylvania to observe Forest Protection week during the period between September 26 and October 2. He urged all residents of the state to take action for the prevention and suppression of forest fires so that the 5 million of acres now barren because of fires may again grow trees.

Under the direction of Gifford Pinchot, the state's chief forester, the Pennsylvania Department of Forestry is making preparations for statewide observance of the Forest Protection week. Ministers, school teachers and leader of civic and commercial organizations are asked to take active parts in the campaign to stop the fires that every year caused tremendous damage to the forests of Pennsylvania.

Governor Sproul's proclamation follows:

Without forests Pennsylvania cannot prosper as she should. The protection and renewal of our forests of inestimable importance to the future welfare of our state. It is our duty to use wisely and carefully protect feeble remnants of the mighty forests given to our forefathers, and restore to production the millions of acres now barren because of forest fires. Those who come after us must have ample supply of wood, pure water, accessible play grounds, and all other blessings that come from forested mountains.

Sixty years ago Pennsylvania produced more timber than any other state. Now her timber production is comparatively little worth. The glory of our forests has largely departed. Forest fires have ragged too widely and too long.

Every forest fire is not only a curse but a possible calamity. Nine out of every ten of them result from carelessness and might have been prevented. This is a heavy indictment against an enlightened people.

Forest fires must stop. Our original forests have been laid waste, but the productive forces of nature still remain. The damage can and must be repaired. Our hills must be kept green and our streams full.

Therefore, I, William C. Sproul, governor of the Commonwealth of Pennsylvania, do designate the week of September 26th to October 2nd next, as FOREST PROTECTION WEEK.

I request and urge all citizens of this state men and women alike, and all persons residing or being within its boundaries, to unite in thought and action for the preservation of our common heritage by preventing and suppressing forest fires; and especially I ask all churches, schools, and civic and commercial organizations to let the facts be known through sermons, discourses and addresses during the week designated. Let those who conduct operations likely to start fires take steps to prevent them, and let those who own forest land take measures for reducing the likelihood of their arising, for lessening their severity, and for limiting their extent.

VACCINATION LAW IS UPHELD IN CENTER COUNTY

An opinion and decree of Judge Henry C. Quigley, refused the motion for a new trial in the case of the Howard township school board against Burdine Butler and commanded the defendant to appear for sentence, says the Bellefonte Watchman.

The case was really one to test the vaccination law. Mr. Butler refused to have two of his children vaccinated as required by law and the result was they were sent home from school. Then action was brought against Mr. Butler under the compulsory attendance act to compel him to send his children to school. The case was tried at the December term of court, 1919, and Mr. Butler was convicted. A motion was promptly made for a new trial. The case was argued in due time and the decision of the court refused the motion and orders Mr. Butler to appear for sentence.

Mr. Butler, of course, has the right of appeal to a higher court but it is not yet known whether he will avail himself of that right.

OPERATORS "STAND PAT" ON INCREASE GIVEN TO DAY MEN

The Executive Committee of the Central Pennsylvania Coal Operators' Association met in Clearfield Saturday last for the purpose of taking action upon the recent request of the Policy Committee of the miners of the district for a joint conference between operators and miners relative to an adjustment of the demands of the men made at the recent DuBois convention for an increase in the price of mining. The meeting was presided over by President B. M. Clark, and after discussing the proposition it was unanimously decided to "stand pat" on the offer of the operators to their men following receipt of the demand for an increase of 50 per cent. in their wages and a joint meeting for the purpose of agreeing upon the necessary addition to the scale.

The following notice was then prepared and after being unanimously adopted was ordered posted at all the mines of the members of the Association throughout District No. 2:

"NOTICE.

In accordance with the request of President Wilson as to the correction of the possible inequalities in the present wage agreements, and in line with the resulting adjustments in other fields, this Company will pay the following wages, to wit:

FIRST: To the wages of all day men there shall be added the sum of \$1.50 per day, except to trappers, greasers, boys, and all others not receiving men's wages. The excepted classes named herein shall receive an advance of 82 cents per day.

SECOND: That the advance herein provided shall become effective, on August 16th, 1920, and continue during the balance of the contract period."

In conversation with President Clark following the adjournment of the meeting, he stated that the action of the Central Pennsylvania Association was in line with the general policy of bituminous coal producers throughout the country. The increases provided for in the above notice are the same as allowed everywhere else throughout the bituminous field, and all that can be allowed."

The action of the Executive Committee was officially made known to the Policy Committee of the miners and will likely be considered by them at an early meeting this week.

PITTSBURGH BANK MESSENGER HELD UP BY BANDITS

PITTSBURGH, Sept. 13.—Three bandits today escaped with \$9,200 when they knocked Wm. McCauley, a messenger for the Citizens' Deposit & Trust Company of Sharpsburg, near here unconscious with a black jack. According to the police McCauley was waiting for a street car on 62nd street when a man came up behind, grabbed the satchel containing the money and leaped into an automobile containing two other men. The satchel was later found with the checks intact but the money missing.

LARGE NUMBER OF WOMEN VOTE IN MAINE

AUGUSTA, Me., Sept. 13.—Estimates today were that more than 50,000 of the 93,000 women in the state will vote in the state election today. At noon Republican leaders reiterated their claims that the G. O. P. would poll a majority of 25,000.

PASSES FIVE WORTHLESS CHECKS

HARRISBURG, Sept. 13.—Jos. S. King, of Salt Lake City, Utah, is held by local police on charges of passing five bogus checks. The checks were all on out of town banks, the police said. King was accompanied by his wife and child when he made purchases aggregating \$376.92. He received \$265.56 in change, according to the police. All but \$125 was recovered by the detectives.

Foley's Honey and Tar COMPOUND

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchitis, coughs, hoarseness, etc.

The First Dose Gave Relief

C. E. Summers, Holdrege, Neb. writes: "Some time ago I contracted a very severe cold and cough due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound and I got a little bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I had not coughed all night. By using this directed at first two days my cough was entirely gone, and I gave Foley's Honey and Tar full credit for my speedy and permanent recovery."

For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.

POPULAR YOUNG COUPLE MARRIED

A very pretty wedding took place at St. Timothy's Catholic Church at Curwensville, Wednesday morning at 10 o'clock, when Clarence Beauseigneur of Clearfield and Miss Emma Schmit of Susquehanna Bridge were united in the holy bonds of matrimony at a nuptial mass by the Rev. P. J. Lynch.

During the mass, Miss Bernadette Cole sang "O Promise Me!" The couple were attended by Miss Amanda Beauseigneur, sister of the groom, and Carl Schmit, brother of the bride. After the ceremony a wedding breakfast was served at the bride's home, after which they left on a wedding trip to Niagara Falls and Canada. They will make their home in Clearfield.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

To see the healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel good day in and day out, just try inside bathing every morning for a week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestion, waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a fine appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to demonstrate that those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, or whose skin is sallow or pallid, that one week of inside bathing will have them looking and feeling better every way.

JEWES OBSERVING NEW YEAR

The Hebrew holiday season began Friday night with the observance of the Sabbath and will continue until next Sunday, September 18th.

By the Hebrew calendar, the first day of the month of Tishri marks a new year, in this case the year 5681. The New Year, or Rosh Hashanah, will be followed by the observance of Yom Kippur. That holiday is the most solemn on the Hebrew calendar, being the Day of Atonement. It is marked by continuous abstinence on the part of those who wish their sins forgiven.

The year 5681 is what is known as a perfect year, with 385 days, the preceding year having been a common year with 354 days.

NEW YORK WOMAN GAINS 36 POUNDS

Relatives and Friends Were Alarmed Over Her Condition Before She Began Taking

Tanlac.
"I have actually gained thirty-eight pounds in weight since I began taking Tanlac," recently said Mrs. Jessie Williams, of 322 7th St., Niagara Falls, N. Y.

"For two years I was subject to frequent attacks of acute indigestion, and the gas that crowded around my heart almost suffocated me. I had sharp pains in the pit of my stomach that hurt me so I could hardly stand it, and such a misery in my back I felt like it would break in two.

"I was under treatment and taking medicine constantly, but instead of being helped I kept getting worse, was losing weight all the time and got to looking so bad my relatives and friends became alarmed. The last spell I had was so bad I was actually too weak to turn over in bed.

"My family urged me to try Tanlac so I got a bottle and by the time I got well started on the second bottle I was able to get up. I kept on taking it until every sign of my indigestion had left me, and I haven't felt a touch of indigestion since. My appetite is simply splendid, I feel hungry all the time. I enjoy every meal and never have the slightest distress after eating.

"My friends tell me now that I am the picture of health, and I feel as strong and active as I did when I was a girl and have almost forgotten how it feels to be sick."

Tanlac is sold by all leading druggists.

Start Your Washing While You Prepare Breakfast

You can do two things at once—start your weekly washing and get breakfast at the same time. It's easy to do when you have a

Thor Electric
Washing Machine

Which now has the Interlocking Swinging Wringer

Just put the clothes, hot water and soap into the machine and press the button. Off it will go with no further attention from you until you are ready to stop it. And it won't get out of order or do anything wrong. Thor machines are fool proof and are so simple in their operation that any person of ordinary intelligence can operate them.

You Can Get One for \$10 Down

We have a machine in our store ready to deliver instantly and we have a simple easy payment plan whereby you pay for the machine in monthly payments. Could anything be simpler or easier.

The Thor Has These Advantages

It has no belts to slip, break or catch. Covered gears and steel shafts take the place of belts. A revolving cylinder of sweet white maple does the work of washing thoroughly and completely. The wringer is reversible, wringing from either side. Push buttons and levers conveniently placed. Cover which serves as a table. Steel tension springs and hardened bearings. 2 cents per hour will pay for the current. It has a full length gas burner. The machine is made by the largest washing machine establishment in the world. The Thor is the leading machine in America today.

DRINKS AND FROZEN DAINTIES.

During the warm weather there is nothing so gratifying as a glass of iced fruit drink, of which there are innumerable varieties.

Mint Julep.—Make a syrup by boiling one quart of water with two cupsful of sugar 20 minutes. Wash and separate 12 sprigs of mint in pieces and cover with one and one-half cupsful of boiling water, cover and let stand in a warm place five minutes, strain and add to the syrup. Add two cupsful of orange juice, one cupful of strawberry juice, the juice of eight lemons. Pour into a punch bowl and just before serving add one pint of charged water with the ice and more chilled water. Serve with fresh mint leaves and whole strawberries.

Cherry Frappe.—Take the juice from a quart can of white cherries; add a pint bottle of apothanas water and sugar to taste. Strain and freeze as usual.

Orange Frappe.—Boil two cupsful of water twenty minutes; add the grated rind of one orange and pour it over two cupsful of blood orange juice; add the juice of one lemon, strain, cool and freeze as directed.

Raspberry and Strawberry Sherbet.—Take one pint of berry juice, one half of each kind, or unmix; one pint of sugar, one pint of water, the juice of two lemons, one teaspoonful of gelatin. Soften the gelatin in a little water and add the other ingredients when well mixed freeze as usual. Preserved or canned fruit may be used, adding one cupful of sugar to a pint of fruit and one quart of water.

Frozen Apricots.—Put one can of apricots through a sieve; add one pint of sugar and one quart of water; stir and when the sugar is dissolved freeze. When partly frozen add one pint of whipped cream and a quarter of a teaspoonful of salt. For ordinary creams use one part of salt to three parts of finely powdered ice. Use a basin; add three measures of ice to the bottom, then one measure of salt; repeat until the ice comes up well around the freezer. Turn slowly at first, then faster until it is well frozen. Remove the paddle, put a cork in the freezer and cover well with ice and salt. Let stand three hours to ripen.

CLEARFIELD BALL PLAYERS NOT VERY CHESTY

One day last week a challenge appeared in the Curwensville letter to The Progress to the best baseball team Clearfield could get together. The challenge was issued on behalf of Mack's Crescent team of Curwensville and was for a series of three games, all home players to be engaged.

We have been waiting for some of our baseball sharks to take hold of the proposition but they seem to have passed it up. If somebody don't get busy soon we will feel obliged to dig up a team ourselves.

Sulphur Clears Rough Red Skin

Face, Neck and Arms Easily Made Smooth, Says Specialist.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.

Find Measurement for Sound.

Sound, though seemingly a very definite manifestation of activity, is peculiar among physical phenomena for its lack of units or means of measurement. An American physicist has finally arrived at a method of expressing sound values in watts, making absolute measurements with new and rather complex apparatus. A standard source of sound, called a "phone," is made adjustable in tone by changing the voltage of the resonator and the tension of wires supporting a diaphragm.—From the December Popular Mechanics Magazine.

Down on the Derby.

My cheeks grow so warm as I remember an occasion several years ago when my blushes almost burned me up. I went to church one Sunday evening with an escort who wore a stunning new derby hat. (Thank heaven these hats are almost relics now.) The congregation rose for the singing of the first hymn, and at the close of the song there was a loud report. I had sat down upon that stunning new hat.—Exchange.

Stenog Among the Romans.

It is not generally known that stenography as a profession was followed as long ago as the days of the Roman empire. Poets, who are sometimes ridiculed nowadays for having private stenographers, had them in the fourth century of our era.

Remember Ratty Waters who tied the dishpan under Prof. Bunn's car at Princeton? He's more seriously inclined now—sells high grade bonds! Ran smack into Ratty as he was hustling for his a m fodder with a Camel cigarette perched between his lips and looking as happy as a turtle on a log! It's a pretty art—thus opening up the morning with a Camel!

Well sir, Pete, what Ratty rattled into my rafters would supply Camel selling stuff for a year! "There's nothing to this cigarette game but Camels," said Ratty. "Their mellowness is a revelation and I never did run into such mildness in my life! And, when you figure that Camels have ALL the "body" any smoker wants—well, I just marvel that such a cigarette could be made! Ever get such refreshing flavor?"

For instance, Ratty spread this—"Shorty, I can't stand the usual unpleasant cigarette aftertaste and unpleasant cigarette odor! Camels are free from both! (100 per cent. O K, Pete!) And, they never tire my taste! When you pass by Camels you have slipped by your smoke signals!"

Tried to get Ratty to put some of that sales talk on paper, but he came back—"You tell 'em, old kettle—you've got the spout!"

Pete, Camels won Ratty's favor like they've won thousands of others! They'll win any man who gives them a chance!

P. S.—Just wrote R. J. Reynolds Tob. Co. It ought to help to slip a picture of the Camel package right along side the big name "Camel"—like this! more ideas brewing

KILLED BIG RATTLER

Frank Carns killed a four foot rattler sporting ten rattles, on the road near the Stone Run camp Saturday last. Sunday morning Will Carns while driving out from town to the camp spied a monster rattler along the road and stopping his flivver jumped out and slew the reptile, which measured 54 inches in length and carried twelve rattles and a button. The two snakes were killed not more than one hundred yards apart, which would appear to carry out the old observation that they always travel in pairs.

If Back Hurts Begin On Salts

Flush the Kidneys at once when Backache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorder come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

NEED EDUCATIONAL DIRETOR IN THE FEDERAL CABINET

NEW YORK, Sept. 13.—Creation of a Department of Education in the President's cabinet is essential to the co-ordination of the state and municipal efforts in combating the great menace of illiteracy in the United States in the opinion of New York educators. The school problem has become so serious it is national rather than local. E. A. Nieceker, Director of Research, said in an interview today. This is practically true of New York, which because of its location must, unaided, absorb the great problem of immigration, he said. Towns and cities have worked out their own solution, he said. This would be increased in efficiency by federal co-operation.

DELINQUENT DOG TAX MAY BE COLLECTED

Dog owners in Pennsylvania who violate the law by failing to take out a license for their dogs, and who escape prosecution during any one year, may be held for the license fee even though action is not instituted until the following year. The Pennsylvania Department of Agriculture is assisting the local county officers and constables in enforcing the law and while hundreds of prosecutions have been instituted in various sections and while this work will be vigorously prosecuted throughout the year yet there will be some dog

owners who will escape detection. These dog owners, however, will be liable to prosecution next year for failure to comply with the law this year.

TWO SUSPECTS ARE HELD AS RESULT OF VALIER EXPLOSION

Joe and Toney Mazurki, brothers of Valier, are being held in the Punxsutawney lockup as suspects in the dynamiting outrage at Valier Thursday night, which cost the life of James Brown, and endangered the lives of 15 others. The brothers were defendants in the recent injunction proceedings brought by the Pansy Coal company and are the men whom Brown, in his testimony at the injunction hearing, said had told him that there would be "trouble and maybe shooting" if the men persisted in working at the Pansy mine, says the Spirit.

As far as can be ascertained no other circumstances connect the men with the outrage at Valier and one of the defendants is said already to have established an alibi.

FATAL SHOOTING AFFAIR NEAR WOODLAND

"DAN" CONOWAY KILLS SELF AFTER SHOOTING WIFE, MOTHER-IN-LAW AND LITTLE STEP-DAUGHTER

VICTIMS OF ATROCIOUS DEED ARE IN CLEARFIELD HOSPITAL: CONDITION SERIOUS BUT NOT NECESSARILY FATAL

BOUGHT GUN HERE THIS MORNING

The little rural community surrounding the Independent school district in Bradford township, about one mile from Barrett Station, was thrown into a fever of excitement by a most repulsive occurrence this morning about 9:30 o'clock. As a result of the happening, which shocked the entire community, James R. Conoway, a miner aged 32 years, is lying dead in the public road in front of the house of Grant Cupler, while his wife, Mrs. Alta Lytle Conoway, aged 22 years, his step-daughter, little Alice Davis, aged 6 years, and his mother-in-law, Mrs. Grant Cupler, are patients in the Clearfield Hospital, suffering from serious gun shot wounds.

The shooting was done by J. B. or "Dan" Conoway and was culmination of a series of domestic difficulties extending almost from the time of his marriage something over three years ago. Some time ago his wife was forced to leave him on account of his abuse and failure to provide for her. They sort of patched up their differences again, but on Saturday last Mrs. Conoway went before a Woodland Justice of the Peace and made information against the husband for asault and battery. The warrant had not been served but Conoway heard of the warrant having been issued and discussed the matter with several acquaintances, on Sunday. He seemed to regard it as more or less of a joke in telling that he and his wife were going to have a lawsuit. He said he was coming to town today to hire a lawyer.

He came to town early this morning but instead of hiring a lawyer, he went to the gun store of Ira Walton on Market street where he purchased a cheap .22-calibre revolver and a number of shells for same.

He went out to Barrett on the 8:20 Pennsylvania train and walked the intervening mile to the Cupler home, where he appeared about 9:30 o'clock. His wife and Wayne Cupler, a little 7 year-old boy, were in an out-kitchen adjoining the home when Conoway walked in off the road and looked thru the window. When she saw the face of her husband at the window Mrs. Conoway screamed and ran out onto the porch toward the back door of the house. Conoway fired at her as she was mid-way between the out-kitchen and the house. The bullet struck the woman in the back but a corset steel deflected it and glanced off it imbedded itself in the wall alongside the door.

Conoway followed the woman into the kitchen where her mother, Mrs. Cupler, and several little children were huddled, frightened almost out of their wits by the shooting.

When he entered the door Conoway turned his weapon on his mother-in-law and fired a shot at her. The bullet struck her in the right breast and passed clear through her body, coming out under the shoulder blade. The little step-daughter, the innocent cause of much of the trouble between Conoway and his wife, was standing nearby and the crazed man fired a shot into her right side, the bullet penetrating the breast and lodging just under the skin.

When Conoway turned his gun up on her mother and child, his wife appeared to lose all thought of self and turning flew into him like a tiger. She caught his arm and wrestled with him and with the strength of desperation managed to thrust him out of the porch and slam the door shut behind him.

The little 7-year-old boy was standing on the porch too bewildered to run away when Conoway was thrust out onto the porch, but he seemed to have satisfied his lust for blood of innocent people and paying no attention to the boy he made his way toward the front of the house. The boy says he fired a shot as he went toward the river and as he reached the road a second shot rang out and Conoway fell to the ground with a gaping wound in his head, the fatal bullet entering his right temple and coming out behind the left ear. The revolver dropped from his nerveless hand as he fell and was lying a few feet from his hand.

The alarm was quickly given and medical aid for the injured women was summoned. A telephone call soon brought the ambulance and Mrs. Cupler, Mrs. Conoway and her child were brought to the hospital for medical attention.

Meanwhile word was sent to the authorities and Corporal Hoffman and State Trooper Keogh repaired at once to the scene, where they took charge of the situation until Coronor Pollum and his jury arrived to hold the required inquest into the happening.

Word from the hospital as we go to press is that while Mrs. Cupler and the little Davis girl are seriously hurt, their injuries are not necessarily fatal. Mrs. Conoway's condition is highly satisfactory.

SYKESVILLE MOTOR CYCLE RACER MEETS DEATH AT DUBOIS

Philip Hensher, died at the Maple Avenue hospital, DuBois, shortly after 12 o'clock this morning, following injuries received in a motorcycle accident at noon on Saturday. Mr. Hensher was unconscious for a period of 36 hours having been in a state of coma from the time of the accident until death took place early this morning. The body was removed to the Moore undertaking rooms, where it will be prepared for burial, pending the arrival of relatives here this morning to take charge of it.

Hensher, who is a resident of Sykesville, was at the park in connection with the DuBois Motorcycle club picnic held there on Saturday. Although the races were not scheduled until afternoon he decided to tune his machine up a bit by running around the track several times. He proceeded to do so and while approaching the far turn on the second lap was traveling at a terrific rate of speed, estimated by eye witnesses at between 55 and 60 miles an hour. He applied the brakes suddenly with the result that the machine and side car tilted straight ahead the momentum turning it over three times before being brot to a stop. The unfortunate man was unconscious when picked up and was given first aid treatment. It was noticed however that his condition was serious and he was placed in a car and hurried to the Maple Avenue hospital where he remained in an unconscious condition until death.

The machine which he was riding was practically undamaged, and can be repaired with but little expense. It is stated that as a result of the speed at which he was traveling, and the force with which he applied the brakes the entire machine with its driver was hurled into the air a distance of 15 feet, following the first turn over. It fell back to the ground and made two other turns before stopping. Hensher was still at the wheel when help arrived.

ITALIAN WORKERS TAKE FIRST STEP TO FIRST UPSET

LONDON, Sept. 13.—The Post declared today that the seizure of factories by workers in Italy is the first step of a vast conspiracy to overthrow the existing governments in Europe. The events in Italy, according to the newspaper, were timed to occur simultaneously with the expected capture of Warsaw by the Bolsheviks and were to be followed by a general strike in Great Britain and an uprising in Germany.

RAILROAD MEN TO HEAR HARDING

MARION, Ohio, Sept. 13.—Local railroad men will gather around the Harding front porch after work today to hear the Republican Presidential nominee discuss the issues concerning them. Much interest centered on the election in Maine today which will throw light on the trend of the country. It developed today that one of the principle reasons for Harding's western trip is to make a fight for a Republican United States Senate.

R. L. Livingston of Tenth street left Monday for Bucknell University where he will enter as a freshman.

HARD COAL MINERS TO HOLD IMPORTANT MEETING HAZELTON

SCRANTON, Sept. 13.—Three days having been consumed considering the refusal of President Wilson to reopen the anthracite miners' case, interest in the question centered in Hazelton where a meeting was to be held this afternoon by the Policy Committee of the three districts of the United Mine Workers of America to determine the next move to take to obtain a more satisfactory wage award than that granted by the anthracite wage commission.

REDS AGAIN CLAIM WRANGLER ARMY IS ALL WIPED OUT

LONDON, Sept. 13.—The Bolshevik official communique made public here today again reported that General Wrangel's army in the Crimean region had been virtually wiped out. The statement also declared the Poles were retreating before the new Russian counter offensive in the vicinity of Brest-Litovsk. The Bolsheviks claimed to have occupied the fortified positions along the River Bug.

AUTOPSY TO LEARN CAUSE OF DEATH OF MISS THOMAS

PARIS, Sept. 13.—An autopsy will be held today to determine the exact cause of the death of Miss Olive Thomas, motion picture actress, and whether a permit will be issued by the government to ship her body to the United States. Jack Pickford, husband of the actress, has left Paris. He went to London in an aeroplane accompanied by Owen Moore, one of the party of moving picture actors and actresses who are sight seeing in Paris. It was understood that Pickford will return here on Wednesday. As soon as a permit is granted the body will be shipped to New York where funeral services will be held.

LONDON, Sept. 13.—Seven of the eleven hunger-striking Sinn Feiners imprisoned in Cork have collapsed and one is reported to be dying, according to dispatches to the Daily News today. They have been without food for 14 days. The whole tramway service in Dublin was suspended for two hours Saturday while the car

REPUBLICANS WILL CARRY MAINE IN ELECTION TODAY

WASHINGTON, Sept. 12.—Secretary Daniels, regarded as President Wilson's personal representative in the Maine election campaign, returned from that state tonight and conceded victory to the Republicans tomorrow. He admitted it was just a question of majority.

Republican leaders claim they will carry Maine by 25,000 majority. What is more they point to the old political proverb "as Maine goes, so goes the Nation." President Wilson and the league of nations have been the sole issues.

"We waged a splendid campaign, had big audiences, and plenty of enthusiasm, but I would not want to claim victory as Maine is inherently Republican," said Secretary Daniels.

"No one expects Maine to go Democratic any more than one would expect Texas to go Republican," he added.

"I do not want to make any promises," he retorted. "You know the election has no significance with relation to the November election. The electoral vote is not affected."

Until Secretary Daniels returned leaders were inclined to speak hopefully of the New England situation. Extensive arrangements had been made, particularly at the White House, to get the returns.

Republicans challenged the Democratic claim that tomorrow's election is of no significance.

"It is true that it is not a presidential election but Maine voters are electing a complete state ticket, as well as members of congress," said Bascombe Flint, district director for the Republican committee, "and the all-absorbing issue has been the league of nations."

NOTICE REPUBLICANS

Members of the Vigilance Committee will meet in the Arbitration Room of the Court House on Monday evening, tonight, at eight o'clock for the purpose of laying plans for the coming election. It is hoped that all Republicans both men and women, will attend.

GOVERNOR CALLS ON PEOPLE TO SAVE OUR FORESTS

HARRISBURG, Sept. 13.—Governor Sproul today issued a proclamation calling upon the citizens of Pennsylvania to observe Forest Protection week during the period between September 26 and October 2. He urged all residents of the state to take action for the prevention and suppression of forest fires so that the 5 million of acres now barren because of fires may again grow trees.

Under the direction of Gifford Pinchot, the state's chief forester, the Pennsylvania Department of Forestry is making preparations for statewide observance of the Forest Protection week. Ministers, school teachers and leader of civic and commercial organizations are asked to take active parts in the campaign to stop the fires that every year caused tremendous damage to the forests of Pennsylvania.

Governor Sproul's proclamation follows:

Without forests Pennsylvania cannot prosper as she should. The protection and renewal of our forests of inestimable importance to the future welfare of our state. It is our duty to use wisely and carefully protect feeble remnants of the mighty forests given to our forefathers, and restore to production the millions of acres now barren because of forest fires. Those who come after us must have ample supply of wood, pure water, accessible play grounds, and all other blessings that come from forested mountains.

Sixty years ago Pennsylvania produced more timber than any other state. Now her timber production is comparatively little worth. The glory of our forests has largely departed. Forest fires have ragged too widely and too long.

Every forest fire is not only a curse but a possible calamity. Nine out of ten of them result from carelessness and might have been prevented. This is a heavy indictment against an enlightened people.

Forest fires must stop. Our original forests have been laid waste, but the productive forces of nature still remain. The damage can and must be repaired. Our hills must be kept green and our streams full.

Therefore, I, William C. Sproul, governor of the Commonwealth of Pennsylvania, do designate the week of September 26th to October 2nd next, as FOREST PROTECTION WEEK.

I request and urge all citizens of this state men and women alike, and all persons residing or being within its boundaries, to unite in thought and action for the preservation of our common heritage by preventing and suppressing forest fires; and especially I ask all churches, schools, and civic and commercial organizations to let the facts be known through sermons, discourses and addresses during the week designated. Let those who conduct operations likely to start fires take steps to prevent them, and let those who own forest land take measures for reducing the likelihood of their arising, for lessening their severity, and for limiting their extent.

VACCINATION LAW IS UPHELD IN CENTER COUNTY

An opinion and decree of Judge Henry C. Quigley, refused the motion for a new trial in the case of the Howard township school board against Burdine Butler and commanded the defendant to appear for sentence, says the Bellefonte Watchman.

The case was really one to test the vaccination law. Mr. Butler refused to have two of his children vaccinated as required by law and the result was they were sent home from school. Then action was brought against Mr. Butler under the compulsory attendance act to compel him to send his children to school. The case was tried at the December term of court, 1919, and Mr. Butler was convicted. A motion was promptly made for a new trial. The case was argued in due time and the decision of the court refused the motion and orders Mr. Butler to appear for sentence.

Mr. Butler, of course, has the right of appeal to a higher court but it is not yet known whether he will avail himself of that right.

OPERATORS "STAND PAT" ON INCREASE GIVEN TO DAY MEN

The Executive Committee of the Central Pennsylvania Coal Operators' Association met in Clearfield Saturday last for the purpose of taking action upon the recent request of the Policy Committee of the miners of the district for a joint conference between operators and miners relative to an adjustment of the demands of the men made at the recent DuBois convention for an increase in the price of mining. The meeting was presided over by President B. M. Clark, and after discussing the proposition it was unanimously decided to "stand pat" on the offer of the operators to their men following receipt of the demand for an increase of 50 per cent. in their wages and a joint meeting for the purpose of agreeing upon the necessary addition to the scale.

The following notice was then prepared and after being unanimously adopted was ordered posted at all the mines of the members of the Association throughout District No. 2:

"NOTICE.

In accordance with the request of President Wilson as to the correction of the possible inequalities in the present wage agreements, and in line with the resulting adjustments in other fields, this Company will pay the following wages, to wit:

FIRST: To the wages of all day men there shall be added the sum of \$1.50 per day, except to trappers, greasers, boys, and all others not receiving men's wages. The excepted classes named herein shall receive an advance of 82 cents per day.

SECOND: That the advance herein provided shall become effective, on August 16th, 1920, and continue during the balance of the contract period."

In conversation with President Clark following the adjournment of the meeting, he stated that the action of the Central Pennsylvania Association was in line with the general policy of bituminous coal producers throughout the country. The increases provided for in the above notice are the same as allowed everywhere else throughout the bituminous field, and all that can be allowed."

The action of the Executive Committee was officially made known to the Policy Committee of the miners and will likely be considered by them at an early meeting this week.

PITTSBURGH BANK MESSENGER HELD UP BY BANDITS

PITTSBURGH, Sept. 13.—Three bandits today escaped with \$2,200 when they knocked Wm. McCauley, a messenger for the Citizens' Deposit & Trust Company of Sharpsburg, near here unconscious with a black jack. According to the police McCauley was waiting for a street car on 62nd street when a man came up behind, grabbed the satchel containing the money and leaped into an automobile containing two other men. The satchel was later found with the checks intact but the money missing.

LARGE NUMBER OF WOMEN VOTE IN MAINE

AUGUSTA, Me., Sept. 13.—Estimates today were that more than 50,000 of the 93,000 women in the state will vote in the state election today. At noon Republican leaders reiterated their claims that the G. O. P. would poll a majority of 25,000.

Foley's Honey and Tar COMPOUND

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchitis, coughs, hoarseness, etc.

The First Dose Gave Relief

C. E. Summers, Holdrege, Neb. writes: "Some time ago I contracted a very severe cold and cough due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound and I got a little bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I had not coughed all night. By using this directed at first two days my cough was entirely gone, and I gave Foley's Honey and Tar full credit for my speedy and permanent recovery."

For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.

What Lumber Really Is

At this time of abnormal scarcity of homes and buildings of all kinds, and rents higher than ever before, you should think of lumber for what it really is---the most important factor in building better homes.

Consider it as the item which makes your home beautiful, serviceable, comfortable, as it lends a hand to happiness---yet lumber is the greatest building material value for its cost.

There's Just As Much Style To These House Dresses As You'd Expect in a Dress Costing Ten Times As Much

And why shouldn't you have as neat a dress to wear while you're performing your household duties as you do when you're dressed up? These new ones are exceptional. They're not at all like the old fashioned "Mother Hubbard" but have distinct style touches that put them in a class of their own.

Come in gingham and percale---and any one of them are almost pretty enough for street wear. Regular sizes and out sizes.

"Girls! Tell Mother About These Yankee Maid Dresses"

Possibly she doesn't know about these school dresses. Yankee Maid. Tell her about the good materials, the clever styling, the little touches that make them just the dress for school. Then too tell her about the different plain colors and the color combinations. We have them for girls from 6 years to 14 years.

ROSS & WOODS

NEWS OF OUR NEIGHBORS CURWENSVILLE

Paul Mallon returned home Saturday from a week's vacation trip, spending the time in Philadelphia and New York.

We were in error in the statement that the five Italians who were arrested and fined last week, boarded in the farm. A Mr. Luzzier resides there and farm. A Mr. Luzzier resides there and has no boarders. In justice to Mr. Luzzier we make this correction.

George Fleming, who has been taking care of Oak Hill Cemetery for the past twelve years, took a vacation and visited the Indiana County fair last week. He stated that a great crowd was present every day, and that some of the finest cattle and stock was on exhibition that he ever saw.

Mack's Crescent ball team added another notch on their scroll last Friday by defeating a strong Big Run combination of ball tossers on the home grounds. Score 9 to 2.

Several cases of scarlet fever are reported up in the Nantuxon section of town.

Ray Hile returned to Indiana last week and visited the big fair, returning on Friday.

The total registration of this borough, both men and women, numbers 978. Herschel Ehler, of this place, and Mrs. Violet Quick, of Moshannon, were married last Friday in the Trinity Methodist parsonage, by Rev. W. H. Hartman. The young couple propose to make their home in Curwensville.

POPULAR YOUNG COUPLE MARRIED

A very pretty wedding took place at St. Timothy's Catholic Church at Curwensville, Wednesday morning at 10 o'clock, when Clarence Beauseigneur of Clearfield and Miss Emma Schmit of Susquehanna Bridge were united in the holy bonds of matrimony at a nuptial mass by the Rev. P. J. Lynch.

During the mass, Miss Bernadetta Cole sang "O Promise Me!" The couple were attended by Miss Amanda Beauseigneur, sister of the groom, and Carl Schmit, brother of the bride. After the ceremony a wedding breakfast was served at the bride's home, after which they left on a wedding trip to Niagara Falls and Canada. They will make their home in Clearfield.

Time of Penance, as it were. Mildred had been naughty and her mother had told her to sit on a chair and think how sorry she was. In the meantime her friend Elizabeth came to the door for Mildred to come and play. Elizabeth ran to the door and said, "She can't come out; she's busy being sorry."

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

To see the healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel good day in and day out, just try inside bathing every morning for a week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestion, waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a fine appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to demonstrate that those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, or whose skin is sallow or palid, that one week of inside bathing will have them looking and feeling better every way.

JEWES OBSERVING NEW YEAR

The Hebrew holiday season began Friday night with the observance of the Sabbath and will continue until next Sunday, September 18th.

By the Hebrew calendar, the first day of the month of Tishri marks a new year, in this case the year 5681. The New Year, or Rosh Hashanah, will be followed by the observance of Yom Kippur. That holiday is the most solemn on the Hebrew calendar, being the Day of Atonement. It is marked by continuous abstinence on the part of those who wish their sins forgiven.

The year 5681 is what is known as a perfect year, with 385 days, the preceding year having been a common year with 354 days.

NEW YORK WOMAN GAINS 36 POUNDS

Relatives and Friends Were Alarmed Over Her Condition Before She Began Taking

Tanlac.
"I have actually gained thirty-eight pounds in weight since I began taking Tanlac," recently said Mrs. Jessie Williams, of 322 7th St., Niagara Falls, N. Y.

"For two years I was subject to frequent attacks of acute indigestion, and the gas that crowded around my heart almost suffocated me. I had sharp pains in the pit of my stomach that hurt me so I could hardly stand it, and such a misery in my back I felt like it would break in two.

"I was under treatment and taking medicine constantly, but instead of being helped I kept getting worse, was losing weight all the time and got to looking so bad my relatives and friends became alarmed. The last spell I had was so bad I was actually too weak to turn over in bed.

"My family urged me to try Tanlac so I got a bottle and by the time I got well started on the second bottle I was able to get up. I kept on taking it until every sign of my indigestion had left me, and I haven't felt a touch of indigestion since. My appetite is simply splendid, I feel hungry all the time. I enjoy every meal and never have the slightest distress after eating.

"My friends tell me now that I am the picture of health, and I feel as strong and active as I did when I was a girl and have almost forgotten how it feels to be sick."

Tanlac is sold by all leading druggists.

You can do two things at once—start your weekly washing and get breakfast at the same time. It's easy to do when you have a

Thor Electric Washing Machine

Which now has the Interlocking Swinging Wringer

Just put the clothes, hot water and soap into the machine and press the button. Off it will go with no further attention from you until you are ready to stop it. And it won't get out of order or do anything wrong. Thor machines are fool proof and are so simple in their operation that any person of ordinary intelligence can operate them.

You Can Get One for \$10 Down

We have a machine in our store ready to deliver instantly and we have a simple easy payment plan whereby you pay for the machine in monthly payments. Could anything be simpler or easier.

The Thor Has These Advantages

It has no belts to slip, break or catch. Covered gears and steel shafts take the place of belts. A revolving cylinder of sweet white maple does the work of washing thoroughly and completely. The wringer is reversible, wringing from either side. Push buttons and levers conveniently placed. Cover which serves as a table. Steel tension springs and hardened bearings. 2 cents per hour will pay for the current. It has a full length gas burner. The machine is made by the largest washing machine establishment in the world. The Thor is the leading machine in America today.

DRINKS AND FROZEN DAINTIES.

During the warm weather there is nothing so gratifying as a glass of iced fruit drink, of which there are innumerable varieties.

Mint Julep.—Make a syrup by boiling one quart of water with two cupsful of sugar 20 minutes. Wash and separate 12 sprigs of mint in pieces and cover with one and one-half cupsful of boiling water, cover and let stand in a warm place five minutes, strain and add to the syrup. Add two cupsful of orange juice, one cupful of strawberry juice, the juice of eight lemons. Pour into a punch bowl and just before serving add one pint of charged water with the ice and more chilled water. Serve with fresh mint leaves and whole strawberries.

Cherry Frappe.—Take the juice from a quart can of white cherries; add a pint bottle of apothanas water and sugar to taste. Strain and freeze as usual.

Orange Frappe.—Boil two cupsful of water twenty minutes; add the grated rind of one orange and pour it over two cupsful of blood orange juice; add the juice of one lemon, strain, cool and freeze as directed.

Raspberry and Strawberry Sherbet.—Take one pint of berry juice, one half of each kind, or unmix; one pint of sugar, one pint of water, the juice of two lemons, one teaspoonful of gelatin. Soften the gelatin in a little water and add the other ingredients when well mixed freeze as usual. Preserved or canned fruit may be used, adding one cupful of sugar to a pint of fruit and one quart of water.

Frozen Apricots.—Put one can of apricots through a sieve; add one pint of sugar and one quart of water; stir and when the sugar is dissolved freeze. When partly frozen add one pint of whipped cream and a quarter of a teaspoonful of salt. For ordinary creams use one part of salt to three parts of finely powdered ice. Use a basin; add three measures of ice to the bottom, then one measure of salt; repeat until the ice comes up well around the freezer. Turn slowly at first, then faster until it is well frozen. Remove the paddle, put a cork in the freezer and cover well with ice and salt. Let stand three hours to ripen.

CLEARFIELD BALL PLAYERS NOT VERY CHESTY

One day last week a challenge appeared in the Curwensville letter to The Progress to the best baseball team Clearfield could get together. The challenge was issued on behalf of Mack's Crescent team of Curwensville and was for a series of three games, all home players to be engaged.

We have been waiting for some of our baseball sharks to take hold of the proposition but they seem to have passed it up. If somebody don't get busy soon we will feel obliged to dig up a team ourselves.

Sulphur Clears Rough Red Skin

Face, Neck and Arms Easily Made Smooth, Says Specialist.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.

Find Measurement for Sound.

Sound, though seemingly a very definite manifestation of activity, is peculiar among physical phenomena for its lack of units or means of measurement. An American physicist has finally arrived at a method of expressing sound values in watts, making absolute measurements with new and rather complex apparatus. A standard source of sound, called a "phone," is made adjustable in tone by changing the voltage of the resonator and the tension of wires supporting a diaphragm.—From the December Popular Mechanics Magazine.

Down on the Derby.

My cheeks grow so warm as I remember an occasion several years ago when my blushes almost burned me up. I went to church one Sunday evening with an escort who wore a stunning new derby hat. (Thank heaven these hats are almost relics now.) The congregation rose for the singing of the first hymn, and at the close of the song there was a loud report. I had sat down upon that stunning new hat.—Exchange.

Stenog Among the Romans.

Remember Ratty Waters who tied the dishpan under Prof. Bunn's car at Princeton? He's more seriously inclined now—sells high grade bonds! Ran smack into Ratty as he was hustling for his a m fodder with a Camel cigarette perched between his lips and looking as happy as a turtle on a log! It's a pretty art—thus opening up the morning with a Camel!

Well sir, Pete, what Ratty rattled into my rafters would supply Camel selling stuff for a year! "There's nothing to this cigarette game but Camels," said Ratty. "Their mellowness is a revelation and I never did run into such mildness in my life! And, when you figure that Camels have ALL the "body" any smoker wants—well, I just marvel that such a cigarette could be made! Ever get such a refreshing flavor?"

For instance, Ratty spread this—"Shorty, I can't stand the usual unpleasant cigarette aftertaste and unpleasant cigarette odor! Camels are free from both! (100 per cent. O K, Pete!) And, they never tire my taste! When you pass by Camels you have slipped by your smoke signals!"

Tried to get Ratty to put some of that sales talk on paper, but he came back—"You tell 'em, old kettle—you've got the spout!"

Pete, Camels won Ratty's favor like they've won thousands of others! They'll win any man who gives them a chance!

P. S.—Just wrote R. J. Reynolds Tob. Co. It ought to help to slip a picture of the Camel package right along side the big name "Camel"—like this! more ideas brewing

KILLED BIG RATTLER

Frank Carns killed a four foot rattler sporting ten rattles, on the road near the Stone Run camp Saturday last. Sunday morning Will Carns while driving out from town to the camp spied a monster rattler along the road and stopping his flivver jumped out and slew the reptile, which measured 54 inches in length and carried twelve rattles and a button. The two snakes were killed not more than one hundred yards apart, which would appear to carry out the old observation that they always travel in pairs.

Where She Caught It.

Little Mildred had often been told that she had hair and eyes just like her mother's. One day she was playing on the street when a lady spoke to her and remarked pleasantly: "What pretty red hair you have." "Yes," glibly answered Mildred, "I caught it from mother."

If Back Hurts Begin On Salts

Flush the Kidneys at once when Backache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorder come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

NEED EDUCATIONAL DIRETOR IN THE FEDERAL CABINET

NEW YORK, Sept. 13.—Creation of a Department of Education in the President's cabinet is essential to the co-ordination of the state and municipal efforts in combating the great menace of illiteracy in the United States in the opinion of New York educators. The school problem has become so serious it is national rather than local. E. A. Nieceker, Director of Research, said in an interview today. This is practically true of New York, which because of its location must, unaided, absorb the great problem of immigration, he said. Towns and cities have worked out their own solution, he said. This would be increased in efficiency by federal co-operation.

DELINQUENT DOG TAX MAY BE COLLECTED

Dog owners in Pennsylvania who violate the law by failing to take out a license for their dogs, and who escape prosecution during any one year, may be held for the license fee even though action is not instituted until the following year. The Pennsylvania Department of Agriculture is assisting the local county officers and constables in enforcing the law and while hundreds of prosecutions have been instituted in various sections and while this work will be vigorously prosecuted throughout the year yet there will be some dog

owners who will escape detection. These dog owners, however, will be liable to prosecution next year for failure to comply with the law this year.

TWO SUSPECTS ARE HELD AS RESULT OF VALIER EXPLOSION

Joe and Toney Mazurki, brothers of Valier, are being held in the Punxsutawney lockup as suspects in the dynamiting outrage at Valier Thursday night, which cost the life of James Brown, and endangered the lives of 15 others. The brothers were defendants in the recent injunction proceedings brought by the Pansy Coal company and are the men whom Brown, in his testimony at the injunction hearing, said had told him that there would be "trouble and maybe shooting" if the men persisted in working at the Pansy mine, says the Spirit.

As far as can be ascertained no other circumstances connect the men with the outrage at Valier and one of the defendants is said already to have established an alibi.
